### **References:**

Title 5 Sections 51006, 58106, and 58108  
BP/AP 5055 Enrollment Priorities

Every course, course section, and class reported for state aid, wherever offered and maintained by the District, shall be open to enrollment in accordance with BP 5052 Open Enrollment and a priority system consistent with AP 5055 titled Enrollment Priorities. Enrollment may be limited to students meeting properly validated prerequisites and co-requisites, or due to other non-evaluative, practical, lawful considerations as determined by the College Admissions and Records Office.

No student is required to confer or consult or receive permission to enroll in any class offered by the District, except as provided for in AP 5055 titled Enrollment Priorities and specific programs that permit restricted enrollment, e.g. vocational or allied health programs, as listed in each college catalog.

Students are not required to participate in any pre-registration activities not uniformly required, and no registration procedures shall be used that result in restricting enrollment to a specialized clientele, except as provided for in AP 5055 titled Enrollment Priorities and specific programs that permit restricted enrollment, e.g. vocational or allied health programs, as listed in each college catalog.

A student may challenge an enrollment limitation on any of the following grounds:

- The limitation is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
- The District is not following its enrollment procedures;
- The basis for the limitation does not in fact exist.

Ratified May 4, 2016
