## COLLEGE AUTISM PROGRAM (CAP)

College Autism Program (CAP) is an autism spectrum student group that was developed by DSPS counselors/staff and students in 2014. Since its inception, the group has evolved into a multifaceted support system for Golden West College (GWC) students and employees. CAP's commitment to autistic students and the employees who assist them has been recognized by College Autism Spectrum, College Autism Network, and Great Value Colleges which all recommend GWC for autistic students.

Students in CAP have access to invaluable personalized services that enhance their scholastic and personal success. They receive individual academic, social-emotional, career, and transfer counseling, and create impactful personal connections
