Program review is the primary mechanism by which Golden West College identifies the goals and resources needed to fulfill our educational mission. All programs (instructional and non-instructional) are expected to complete a review on the same three-year cycle. Programs that do not complete their report ARE NOT eligible to receive additional funding for classified positions, faculty positions, facilities, equipment, technology, or other funding recommendations requests.

There are three different program review types: Instructional, Student Services or Administrative.

Each template requests the author(s) to describe their program, reflect on data/outcomes, and define goals for 2023-2024 program timeframe.

In fall 2024, Golden West College is implementing the Annual Plan as a yearly check-in on non-program review years. This Annual Plan is a quick review of progress to-date toward goals set during program review.
